# Overseas Buyers flock to Cavan

Overseas buyers certainly helped to make the first Performance Horse & Pony sale of 2017 a success with 75% of the Lots finding new homes.

The sales complex saw regular buyers back again in force at Cavan as well as numerous new faces who faced hard bargaining to find that special purchase. Buyers travelled from all over Sweden, Scotland, Denmark, Norway, England and Ireland and both vendors and buyers seemed to be equally happy with the sale. An appealing and varied sales catalogue was very tempting and helped ensure that the Lots on offer found their way to new homes.

As per usual the ponies started off the day, and bids were flying for the many ponies that were on offer. Almost half the ponies found new homes with many buyers purchasing these ponies for the coming season.

# 82% CLEARANCE at Cavan April Sales

The Cavan International Horse & Pony April Sale on Wednesday 26th had a fantastic atmosphere, both buyers and sellers were buzzing.

The sales were very brisk with bids coming fast and furious and with many animals changing hands at a very speedy pace. As soon as the Lots entered the sales ring it seemed the many punters were ready to start making their bids before the Lot could make its first circuit around the ring.

A strong European influence was in attendance with buyers from Sweden Belgium and Denmark, who battled with formidable clients from Scotland, England and Wales and of course the home-grown buyer was also extremely well represented.
