

Buoyant 3 Day Sale at Cavan

Cavan has been working hard to make their sales a success for both vendors and buyers through the pandemic and using many avenues to make it accessible to all with online auction, telephone bidding and of course on-site bidding. The evidence that this combination worked showed in the marked increase both in average and percentage of Lots sold on the same sale last year and in the different parts of the world that Lots found new homes.

Some highlights from the Performance Sale

- Turnover up 20%
- Clearance up 66%
- Average up 22% on 2019 and 60% on 2018
